### Challenge Questions

**The culture, ethos, and aspirations of Banchory are developed through a focus on relationships, collaborative practices and high expectations which support the needs of our learners.**

Teachers and learners understand what and how we learn

- 1.1 How effective are we at ensuring an inward, outward and forward focus in our evaluation and improvement activities?
- 1.2 How do we know that our professional learning is improving outcomes for learners?
- 1.3 How effective are our approaches to evaluating and monitoring the impact and sustainability of our professional learning

There is a consistent language of learning developed and used across the school community

- 1.1 Do all staff have sufficiently high aspirations and expectations for all children and young people?
- 2.3 How well do we communicate the purpose of learning and give effective explanations for all learners?

Parents and families are encouraged to actively engage in supporting the learning of their child(ren)

- 2.5 Are outcomes for children improving as a result of their participation in family learning? How do we know?
- 2.7 How effectively do we support parents and carers to participate in, contribute to and understand their child's learning? How effectively do we communicate about progress, attainment and achievement?

**Challenge Questions Data and resources are used effectively to enhance and improve learning and teaching for all stakeholders**

Allocation of resources to sustain improvement priorities

- 1.5 To what extent is financial expenditure focused on improving the quality of learning and teaching?
- 1.5 How effectively do we monitor the use and impact of available resources on learning and teaching?

Data is collected, analysed and used to inform and improve learners' progress and achievement

- 1.5 How effectively do we use our resources to meet the learning needs of all and ensure equity?
- 2.3 How well do we record, analyse and use assessment information to identify development needs for individual learners and specific groups?
- 3.2 How well is our focus on literacy and numeracy leading to raising attainment across the curriculum?

Data is shared appropriately with learners and families

- 2.7 How effectively do we support parents and carers to participate in, contribute to and understand their children's learning? How effectively do we communicate about progress, attainment and achievement?
- 3.2 How well do we use evidence from tracking meetings, professional dialogue and assessments to measure progress over time and in particular at points of transition?

## Notes

**RA MEETING** = Raising Attainment Meeting (Professional Dialogue and Attainment Data)

## Visible Learning Mindframes

These 9 mindframes, "support you to frame the way you think about teaching and learning. They are described in John Hattie's book *Visible Learning* for teachers (2012). Hattie claims that teachers and school leaders who develop these ways of thinking are more likely to have major impacts on student learning." (Taken from *Visible Learning into Action for Teachers Two*)

1. I am an evaluator
2. I am a change agent
3. I talk about learning and not about teaching
4. I see assessment as feedback to me
5. I engage in dialogue not monologue
6. I enjoy the challenge
7. I develop positive relationships
8. I inform all about the language of learning
9. I see learning as hard work

## HGIOS4 QIs

### The quality indicators

There is a set of QIs within each of the three categories. These can support you to take a closer look at specific aspects of your work and can be applied at classroom, department, faculty, whole-school, cluster and local authority level.

Fig. 7: The quality indicators

What is our capacity for improvement?		
Leadership and management	Learning provision	Successes and achievements
How good is our leadership and approach to improvement?	How good is the quality of the care and education we offer?	How good are we at ensuring the best possible outcomes for all our learners?
